

## Reflection and transmission of pulses *Dynamics first* Equipment

### List

- handouts
- white board or large sheet of paper with markers

### Special Instructions

Make one copy of the handout for each group, on paper, of the handout “Pulse passing from one spring to another with faster waves speed.”

Do not distribute at the start of tutorial. Give a copy to each group when students reach Section III, part B of the tutorial, where they are told to ask an instructor for the time sequence of photographs to check their predictions. Instructors should check that students have made predictions before giving letting students see the handout.

6 copies of diagram showing pulses on spring passing from slow to faster spring. (See the Handout.)
